ACADEMIC PROJECTS

Portfolio website

My portfolio website serves as a comprehensive showcase of my educational background, services offered, past projects, and contact information. Additionally, it includes a feedback form where visitors can submit their comments and suggestions, with data securely stored in a Google Sheet using JavaScript fetch API for seamless communication.

- Technologies used- HTML, CSS, JavaScript, Google Sheets & Fonts API

07/2024 - Present

Calculator

A calculator is a device that performs arithmetic operations on numbers. Basic calculators can do only addition, subtraction, multiplication and division mathematical calculations. However, more sophisticated calculators can handle exponential operations, square roots, logarithms, trigonometric functions and hyperbolic functions. Internally, some calculators perform all these functions by repeated addition processes.
